JSON

Professional Summary

I am a full stack developer with years of experience building scalable web applications using technologies like TypeScript, JavaScript, Angular, Spring Boots, Kotlin, and SQL databases. Passionate about optimizing performance and user experience, with a strong focus on both frontend and backend development.

Work Experience

Full Stack Developer - Lenovo (August 2022 - Present)

Developed solutions for global supply chain systems using Angular for frontend and Spring Boot (Kotlin) for backend.

Translated a legacy Java application to Kotlin, optimizing performance and code maintainability.

Worked with SQL databases (PostgreSQL, MicrosoftSQL) to ensure efficient data handling and query optimization.

Updated and maintained legacy PHP web applications, enhancing functionality and resolving performance bottlenecks.

Advertising Specialist - Amazon (January 2021 - July 2022)

Managed international advertising campaigns, ensuring high ROI and client satisfaction.

Customer Service Specialist - Booking.com (April 2016 - August 2020)

Education

Master's in Web App and Website Development - Universitat Oberta de Catalunya (2020 - 2022)

Bachelor's in Tourism - Universitat de Girona (2011 - 2015)

Projects

Gastrolinked - Web app for restaurant digitalization and order management in real time using websockets.

Technologies: Angular, Express.js, MongoDB, Websockets.

Templateasy (Addon for Firefox and Chrome) - Template management tool to boost productivity.

Technologies: JavaScript, HTML/CSS.

This app was used at Amazon Advertising.

View in Chrome Firefox

Hotel Finder - Hotel mockup search app with integrated payment system.

Technologies: Express.js, Stripe, MongoDB

GitHub Repository

Band Site Website - Responsive mockup website for a music band.

Technologies: Stylelint, Sass.

Website

Order System - Order System mockup website.

Technologies: Angular, Tailwind.
